

## The University's Governing Council is now complete

Seven members of the present Board of Governors are among the 14 men and two women appointed to the new Governing Council of the University of Toronto by the Lieutenant Governor-in-Council.

Their names were made public in the Ontario Legislature this week by the Hon. George Kerr, Minister of Colleges and Universities.

Acting President John H. Sword announced that President John M. Kelly, St. Michael's College, and Principal J. Tuzo Wilson, Erindale College, would be the Presidential appointees, as provided for in the University of Toronto Act 1971.

The government's appointees are:

C. MALIM HARDING, who is to be Chairman. Mr. Harding is now Vice-Chairman of the Board of Governors.

WILLIAM B. HARRIS, to be Vice-Chairman. He is now Chairman of the Board.

ANTHONY CECUTTI, M.D.

EDWARD A. DUNLOP, president, Toronto Sun, and managing director, Canadian Rheumatism and Arthritis Society.

GORDON N. FISHER, vice-president and managing director, Southam Press Limited.

SYDNEY HERMAN, present member of the Board, president of Imperial Optical Company Limited.

MRS. BETTY KENNEDY, broadcaster, CFRB.

MURRAY KOFFLER, chairman of the board, Koffler Stores Limited.

C. MACKENZIE KING, member of the present Board, with Olympic Trust of Canada.

THE HON. DANIEL A. LANG, member of the Board, lawyer, and member of the Senate of Canada.

JOHN A. TORY, member of the present Board, lawyer.

WILLIAM O. TWAITS, member of the

Board and chairman and chief executive officer, Imperial Oil Limited.

LYNN WILLIAMS, district representative, United Steelworkers of America, District 6.

All of the government's appointees are graduates of the University of Toronto except Mr. Fisher, Mrs. Kennedy, Mrs. Paikin and Mr. Williams.

Before the appointments were made, Mr. Harris indicated to the Ontario Government that, if he was being considered for the chairmanship of the Council, he would be unable to accept such an appointment because of the increasing pressure of his business affairs and other responsibilities outside the University.

The Governing Council, which will replace the Board of Governors and the Senate as the supreme governing body, consists of 50 members: the Chancellor and the President, ex officio; two senior University officers appointed by the President; 16 persons, none of whom may be students or University staff members, appointed by the government; 12 elected members of the teaching staff; eight elected students — four full-time undergraduates, two part-time graduates, and two graduate students; two elected members of the administrative staff, and eight elected alumni. Student and staff elections were held in the past winter, and a college of electors chose the alumni representatives.

Here are biographical notes on the provincially-appointed members:

**Anthony Joseph Cecutti** was born at Sudbury, Ont., in 1927. He obtained his Doctor of Medicine degree at U of T in 1951. A specialist in obstetrics and gynaecology, Dr. Cecutti relinquished the position of Associate in the Faculty of Medicine in order to accept appointment to the Governing Council.

## New building for men's athletics

The Board of Governors of the University of Toronto has authorized the construction of a men's athletic building, to be located on the south side of Harbord Street, directly to the west of the Benson Building, headquarters for women's athletics, at Huron and Harbord Streets, Acting President John H. Sword has announced.

Because its location adjacent to the Benson Building will permit the sharing of some facilities, the new building will be of modest size, with a total of 110,000 square feet of usable space. It will provide, among other facilities, a large gymnasium area, a 50 metre eight lane Olympic swimming pool, with one, three and five metre diving facilities; squash and handball courts, rooms for boxing, wrestling and other forms of exercise, showers, and administrative space.

The north wing of Hart House, the present centre for men's athletics, will continue to be used for voluntary mixed athletics outside the organized programs of the School of Physical and Health Education and the Men's and Women's Athletic Associations.

While the building is still at the conceptual stage, it is estimated that the cost will be approximately \$6 million, a portion of which will have to be raised through public subscription. The site is already owned by the University and the major part is being used as a parking lot. Construction of the new facility may necessitate the demolition of three buildings on Spadina Avenue currently used for academic offices.

Planning has not yet reached the point where architects and consultants have

President Kelly

Under the terms of the University of Toronto Act 1971, President John M. Kelly of St. Michael's College and Principal J. Tuzo Wilson of Erindale College, the Presidential appointees to the Governing Council, will hold office for one year.

The Act directed that there should be "two members appointed by the Presi-

dent from among the officers of the University, its federated universities, federated colleges and affiliated colleges."

Father Kelly, born in Scranton, Penn., has been in Canada since 1934 and is a Canadian citizen. After attending elementary and secondary schools in Scranton, he became a student at St. Michael's

## Innis College building plans are approved

The Board of Governors of the University of Toronto has approved in principle the report of an Innis College users' committee recommending construction of a college building of about 24,000 square feet on the north side of Sussex Ave. at St. George St.

Since it was founded in 1964, Innis College has been housed in temporary quarters, first in the former University book store on Hart House Circle and latterly in Macdonald-Mowat House.

Acting President John H. Sword issued this statement on the subject:

"Some time ago Principal Peter Russell and his colleagues were asked to prepare a statement of the space needs of the college. The conceptual proposal that was prepared was endorsed by the Committee on Accommodation and Facilities and the Property Committee of the Board of Governors.

"After examining the Innis proposal, the Committee on Accommodation and Facilities expressed its conviction that the best long-term use of available funds would be the construction of an imaginative new building on the cleared portion of the proposed site. However, the committee believed that the project architect, when appointed, should investigate the possible use of existing structures on the remaining portion of the block. It is hoped that an architect will be appointed shortly to translate the Users' Committee report into a building proposal.

"The proposed building will include roughly 15,700 square feet of academic space, including lecture and seminar rooms and faculty offices; approximately 5,000 square feet for various student purposes, lounge areas and student society offices, and 3,000 square feet for administrative offices.

"The proposal which Principal Russell and his colleagues brought forward is both imaginative and practical. Innis College has played a very important role in the University since its establishment in 1964, and a permanent building should give the college even greater opportunities for innovation and experiment."

All of the property north of the John P. Robarts Library and the Faculty of Library Science, along Sussex from St. George to Huron Sts. has been reserved for the ultimate development of Innis College. The eastern portion of the site is used for parking and the western portion is occupied by several houses.

## Men's athletics building planned

(Continued from page 1)

been appointed, but this action is anticipated in the near future. It is hoped that the building will be ready for use in September 1974.

The decision of the Board, made after study of the report of a users' committee set up by Dr. Sword last February, ends a period of frustration extending over several years. Many surveys and reports indicated the pressing need for new facilities for men's athletics. But previous recommendations came to naught for lack of funds.

Since 1920 Hart House, the gift of the Massey Foundation to the University of Toronto, has been almost the sole centre for men's athletics and other recreational purposes. But Hart House, which offered ample space for this purpose in the 1920's, has for years been inadequate for the growing needs of the men's athletic programs. The main gymnasium is not of regulation size, the swimming pool is far below the standards required for swimming competitions, and it does not provide for high diving. U of T's indoor teams must hold their intercollegiate home games outside the campus. The enrolment of full-time and part-time men students this year was 22,734, compared with 4,378 in 1930, 4,986 in 1940, 11,065 in 1950, and 10,404 in 1960.

PRESIDENT'S COUNCIL members met recently for what was expected to be their final meeting before the Governing Council structure of University governance becomes effective on July 1. In this picture, taken immediately after their last session, are: *Left to right, seated* — Malim Harding, Vice-Chairman, Board of Governors; Alex G. Rankin, Executive Vice-President (Non-Academic); Miss Dorothy Robertson, secretary; Prof. Donald F. Forster, Acting Executive-Vice-President (Academic) and Acting
